

What is the Audi Virtual Counter?

Last Modified on 06/19/2017 3:26 pm EDT

Audi Virtual Counter is an all-inclusive website designed for both customers and dealers in mind. As a customer, you will be able to browse the full accessories and collection catalog available from Audi, as well as transact business with dealers including an e-commerce solution. As a dealer you can browse the catalog, update merchandise pricing, adjust shipping rates, build accessories quotes, and create "Magic Pockets" for use on your sales floor.

Check out this brief booklet on services and packages on the Audi Virtual Counter program.
